RE: Letter of Concern, Case No. 3639 & 3640

Dear Dr. Minor,

At their meeting on May 13, 2006, the Arizona Board of Osteopathic Examiners in Medicine and Surgery ("Board") conducted an investigative hearing on the above-referenced complaint. Based on the information presented, the Board found there was insufficient evidence to conclude that your conduct constituted unprofessional conduct or to support direct action against your license. However, the Board voted to issue you this advisory LETTER OF CONCERN pursuant to the provisions of A.R.S. 32-1855 (D) (2). The Board was concerned that you failed to maintain a professional relationship with several of your patients by communicating inappropriate jokes and language which could ultimately lead to a violation of A.R.S. § 32-1854 (46), which states:

"Engaging in disruptive or abusive behavior in a professional setting."

In addition, pursuant to A.R.S. § 32-1855 (D) (3), the Board mandated completion of a continuing education program in the area of establishing and maintaining professional boundaries within six (6) months of the date of this letter. Please be advised that this CME shall be in addition to that normally required and shall be approved by the Executive Director prior to completion.

A Letter of Concern is a non-disciplinary action that remains part of the public record of your license for five years from the date of issuance (May 13, 2006). During those years it will be provided in response to requests for copies of your license file or verifications of license status, including being posted on the Board's website. It also may be cited in future actions against your license. Because it is not a disciplinary action, it is not reported to the National Practitioner Data Base or Health Care Integrity and Protection Databank.

Respectfully,

Jack Confer
Executive Director
